

I am helping Gympanzees raise money to create the **UK's first fully inclusive exercise and play facility for disabled children and young people**. They are getting closer to the final target, need one last push to be able to actually open the doors.

This blog is for our boy, Enki aimed to spread positivity, awareness and understanding of Down Syndrome...

Some of you have already seen it - but, for those who haven't, you might like to look. It includes a trip to a Gympanzees pop up.

This is the fundraising link which tells you all about the amazing project:

For every donation the donation gets doubled!

Every donation helps, no matter how small.

If you can't donate, please could you share the link?

Thank you for your time

Emily
